BUSINESS REVIEW

Overview of Results

For the year ended 31st December, 2002, the Group reported an audited consolidated net loss attributable to shareholders of HK\$68.8 million, which had been significantly reduced from HK\$181.7 million reported for the previous year.

A turnover of HK\$176.3 million and other revenue of HK\$82.8 million, totalling HK\$259.1 million, for the year under review have been recorded. This represents an increase of over 51% over the corresponding total figure for the previous year.

Turnover reported by the advertising agency business fell by around 32% to HK\$54.2 million from HK\$79.4 million for the previous year due to difficult market conditions. This shortfall was compensated for by increases in revenue recorded for entertainment event income, distribution fee income and hotel management fee income. Interest income fell by around 5.1% due to a decrease in bank deposits although interest income on the loan due from Furama Hotel Enterprises Limited for the year, at HK\$75 million, remained steady compared to the previous year.

Chairman's Statement

BUSINESS REVIEW (continued)

Overview of Results (continued)

Due to increased activities in entertainment event production, marketing expenses showed an increase of HK\$6.8 million (equivalent to about 151%) over the previous year. Through tight cost control, administrative expenses had been cut by around 6.3%. A net other operating gain of HK\$16.9 million had also been reported for the year, which was mainly attributable to a write-back of provisions relating to the hotel operations of the Group. These improvements contributed positively to the consolidated results of the Group. Consequently, the loss from operating activities had been reduced to HK\$27.6 million in the year under review, a significant reduction from the loss of HK\$129.3 million reported for the previous year.

The above improvement has, however, been affected by the share of losses of associates of HK\$31.5 million and impairment loss in amount due from a jointly-controlled entity of HK\$6.5 million.

The Group disposed of its entire interest in HKATV.com Limited in November 2002 to Lai Sun Development Company Limited ("LSD"), the controlling shareholder of the Company, for a cash consideration of HK\$46 million. Completion of the disposal is scheduled for end of April 2003.

Shareholders will note from the report of the auditors their opinion on the recoverability of the debt of approximately HK\$1.5 billion due from Furama Hotel Enterprises Limited to a wholly-owned subsidiary of the Company. The auditors also commented on the competence and objectivity and the adequacy of the scope of the work of the independent third party engaged by the Company to carry out the valuation of the carrying value of the rights, titles and interests to 96 films of the Group.

The aforesaid valuation of the film rights was carried out by an independent third party who has extensive relevant experience in the production, marketing and purchasing of films in Hong Kong.

Chairman's Statement

BUSINESS REVIEW (continued)

Proposed Privatisation of the Company

On 29th January, 2003, LSD requested the Directors of the Company to put forward a proposal to the shareholders of the Company other than members of the LSD group regarding a proposed privatisation of the Company by way of a scheme of arrangement under Section 99 of the Companies Act 1981 of Bermuda at a price of HK\$0.28 per share of the Company (the "Proposal"). The Proposal is subject to the approval of the independent shareholders at a meeting convened at the direction of the Supreme Court of Bermuda, and a special general meeting of all shareholders of the Company. Both meetings will be held on 30th April, 2003. The independent financial adviser appointed by the Company to advise the independent board committee has advised the independent board committee to recommend the independent shareholders of the Company to vote against the Proposal at the above meetings.

Satellite Television Operation

An operating loss of HK\$60.7 million had been reported by East Asia satellite television operations ("EAST") for the year under review, compared to the loss of HK\$49.4 million recorded for the 7-month period in the year before. This result was not unexpected as the operation was consolidating its position during this start-up stage. As reported in the interim report for the year, improving the quality and marketability of its programmes has been one of the important targets set by this operation. Stringent cost-benefit control continued to be implemented and this discipline will be maintained in future. Efforts to market programmes produced by EAST at its production centre in Hong Kong to other potential markets in South East Asia, initiated during the second half of the year under review, are continuing.

The EAST Television City in Macau Special Administrative Region is under construction and completion of the project is scheduled for the last quarter of 2004.

Chairman's Statement

BUSINESS REVIEW (continued)

Film Production and Distribution

The operating results of the Group's 35%-owned associate, Media Asia Holdings Limited ("MAH"), for the year under review had been adversely affected by the noticeable decline in local cinema box-office takings. Despite the difficult market conditions, MAH still succeeded in producing a number of films of respectable standard and quality.

One of the film productions of MAH, "Infernal Affairs", was shown to wide acclaim in early 2003. The film received favourable reviews and achieved record box-office takings of over HK\$50 million in Hong Kong alone.

Entertainment

East Asia Entertainment Limited ("EAE"), a wholly-owned subsidiary of the Company, had produced either individually or by way of joint-ventures a total of 13 pop concerts and entertainment shows during the year under review. A number of events, notably the pop concerts of Miriam Yeung, F4 and Jay Chou, had been well received. With the exception of a few events for which losses were recorded, the operating results for all other concerts or shows were satisfactory.

To expand its source of revenue, EAE had been actively developing the sale of distribution rights for DVD recordings of its entertainment shows. Results achieved so far were on target.

Internet-related Operations

Following an evaluation of the potential for future development of these operations in the light of the strategic direction of the Group, it was decided to further trim down all Internet-related operations during the year. It is anticipated that any additional resources to be allocated to these operations will be insignificant.

PROSPECTS

EAST is awaiting approval for a satellite television downlink licence from the relevant authorities in the Mainland. Meanwhile, this operation will continue to focus on improving the marketability of its television programmes in Greater China and South East Asia. The content of the daily broadcast on the EAST "Life Channel" will also be enhanced to appeal to a wider audience.

Chairman's Statement

PROSPECTS (continued)

The development of the local film industry will inevitably be influenced to a certain degree by the direction of the local economy. It is anticipated that unfavourable market conditions will continue to affect the film industry in the short-term but this should not inhibit investments in projects with good potential. MAH is actively evaluating a number of film projects for production in this financial year. The Group is confident that MAH, with its experience and keen perception of market trends, will be able to pick out other winners like "Infernal Affairs" from potential projects under consideration.

Having established a foothold in the local entertainment industry, EAE will continue to concentrate on the production of pop concerts and entertainment shows. At the same time, the sale of distribution rights for DVD recordings of such events will be further developed to generate additional income. The Group believes the events planned by EAE will provide welcome alternatives to other entertainment events available in Hong Kong to the local populace and overseas visitors alike.

LIQUIDITY, FINANCIAL RESOURCES, CHARGE ON ASSETS, GEARING AND CAPITAL COMMITMENTS

As at 31st December, 2002, the Group had cash and cash equivalents of HK\$18,726,000, of which over 85% were denominated in Hong Kong dollar currency.

As at 31st December, 2002, the bank borrowings of HK\$25,000,000 due within one year is secured by the Group's land and buildings with an aggregate net book value of HK\$72,097,000 and is interest-bearing at 2% above HIBOR per annum. In addition, the Group has finance lease payables of HK\$31,000 and HK\$77,000 which fall due within one year and for a period of over one year to five years, respectively, as at 31st December, 2002.

The Group's gearing is considered low, as the debt to equity ratio was only 1%, expressed as a percentage of total bank borrowings to total net assets. As at 31st December, 2002, the Group did not have any financial instruments for hedging purpose, or foreign currency net investment hedged by currency borrowings or other hedging instruments.

Chairman's Statement

LIQUIDITY, FINANCIAL RESOURCES, CHARGE ON ASSETS, GEARING AND CAPITAL COMMITMENTS (continued)

Future capital expenditures will mainly consist of the land and construction cost for the EAST-TV City in COTAI City in Macau. As at 31st December, 2002, the capital commitments contracted for in respect of this project amounted to HK\$42,441,000 (2001: HK\$32,859,000).

The Group believes that its cash holding, liquid asset value, future revenue and available banking facilities will be sufficient to fund its capital expenditure and working capital requirements.

CONTINGENT LIABILITIES

Details of contingent liabilities of the Group at the balance sheet date are set out in note 37 to the financial statements.

EMPLOYEES AND REMUNERATION POLICIES

The Group employed a total of approximately 137 employees as at 31st December, 2002. The total staff costs including net pension contributions for the year was approximately HK\$41,361,000 (excluding directors' remuneration). Pay rates for employees are maintained at competitive level, salary and bonuses are rewarded on a performance related basis. Other staff benefits include free hospitalisation insurance plan, subsidised medical care and subsidies for external educational and training programmes. The Company adopted a share option scheme for its directors and employees on 25th November, 1996.

MANAGEMENT AND STAFF

In the year under review, management and staff had tackled continuous challenges under unfavourable market conditions. On behalf of the Board I would like to thank the management and staff for their efforts. I would also like to record the appreciation of the Board of the support rendered by shareholders and business associates during the year.

Report of the Auditors

To the members

eSun Holdings Limited

(Incorporated in Bermuda with limited liability)

We have audited the financial statements on pages 25 to 74 which have been prepared in accordance with accounting principles generally accepted in Hong Kong.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Company's directors are responsible for the preparation of financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently. It is our responsibility to form an independent opinion, based on our audit, on those statements and to report our opinion to you.

BASIS OF OPINION

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants, except that the scope of our work was limited as explained below.

An audit includes an examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's and the Group's circumstances, consistently applied and adequately disclosed.

We planned our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. However, the evidence available to us was limited as follows:

Report of the Auditors

SCOPE LIMITATIONS

(a) Due from Furama Hotel Enterprises Limited

As further detailed in note 18 to the financial statements, included in the consolidated balance sheet of the Group as at 31st December, 2002 is an amount of HK\$1,500,040,000 (the “Debt”) owed to Golden Pool Enterprise Limited (“GPEL”), an indirect wholly-owned subsidiary of the Company, by Furama Hotel Enterprises Limited, a wholly-owned subsidiary of Lai Sun Development Company Limited (“LSD”), which is a substantial shareholder of the Company. The repayment of the Debt is guaranteed by LSD. For the reasons detailed in note 18 to the financial statements, the directors of the Company consider that the recoverable amount of such Debt is currently uncertain, in the absence of any reliable information, they are unable to estimate the amount of any specific provision against such balance at the current time. We have been unable either to obtain sufficient reliable information, or to carry out alternative auditing procedures to satisfy ourselves as to the recoverability of the Debt as included in the consolidated balance sheet of the Group. Included in the Company’s balance sheet as at 31st December, 2002 is an amount of HK\$1,500,040,000 due from Glynhill International Limited, a wholly-owned subsidiary of the Company, which in turn advanced the same amount to GPEL and we have also been unable either to obtain sufficient reliable information, or to carry out alternative auditing procedures to satisfy ourselves as to the recoverability of such amount due from the subsidiary as included in the Company’s balance sheet.

(b) Film rights

As further detailed in note 20 to the financial statements, included in the consolidated balance sheet of the Group as at 31st December, 2002 are film rights with a carrying amount of HK\$113,109,000. The directors engaged an independent third party (the “Valuer”) to perform a valuation of the Group’s all rights, titles and interests to 96 films (the “96 Film Rights”) as at 31st December, 2002 in order to provide them with a reference to assess if there is any impairment in value of the Group’s film rights as at that date. Having regard to the valuation performed by the Valuer and the current market conditions, the directors are of the opinion that there is no impairment in the value of the Group’s film rights, which include the 96 Film Rights and the television rights to another 20 films (the “20 Film Rights”) amounting to HK\$93,606,000 and HK\$19,503,000, respectively, as at 31st December, 2002. We have been unable to obtain sufficient reliable information to carry out the auditing procedures required by the Statement of Auditing Standards 520 “Using the Work of an Expert” (“SAS 520”), issued by the Hong Kong Society of Accountants, to satisfy ourselves as to (i) the competence and objectivity of the Valuer; and (ii) the adequacy of the scope of the Valuer’s work, as to the 96 Film Rights. We have also been unable to obtain sufficient reliable information, or to carry out alternative auditing procedures to satisfy ourselves as to the directors’ assessment in connection with the carrying amount of the 20 Film Rights. Accordingly, we have been unable to carry out adequate auditing procedures as concerns the carrying amount of the Group’s film rights as at 31st December, 2002.

Any adjustments that might have been found necessary in respect of each of (a) and (b) above would have a consequential impact on the net assets of the Group and the Company as at 31st December, 2002 and the net loss attributable to the shareholders for the year then ended.

In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Report of the Auditors

DISCLAIMER OF OPINION

Because of the significance of the possible effects of the scope limitation in the evidence available to us as set out under (a) of the basis of opinion section of this report, we are unable to form an opinion as to whether the financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31st December, 2002 and of the loss and cash flows of the Group for the year then ended and as to whether the financial statements have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Had there been no limitation in the evidence available to us as set out under (a) of the basis of opinion section of this report, we would have reported that except for any adjustments that might have been found to be necessary had we been able to obtain sufficient evidence relating to the matters discussed in (b) of the basis of opinion section of this report, in our opinion the financial statements give a true and fair view of the state of the affairs of the Company and of the Group as at 31st December, 2002 and of the loss and cash flows of the Group for the year then ended and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

In respect alone of the limitations on our work as set out in the basis of opinion section of this report, we have not obtained all the information and explanations that we considered necessary for the purpose of our audit.

Notes to Financial Statements

31st December, 2002

1. CORPORATE INFORMATION

The principal place of business of the Company is located at 11th Floor, Lai Sun Commercial Centre, 680 Cheung Sha Wan Road, Kowloon, Hong Kong.

During the year, the Group was involved in the following principal activities:

- development and operation of and investment in media, entertainment, Internet and technology-oriented businesses;
- provision of advertising agency services;
- management of hotel operations; and
- satellite television operations.

2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE (“SSAPs”)

The following new and revised SSAPs are effective for the first time for the current year’s financial statements:

- SSAP 1 (Revised): “Presentation of financial statements”
- SSAP 11 (Revised): “Foreign currency translation”
- SSAP 15 (Revised): “Cash flow statements”
- SSAP 34: “Employee benefits”

These SSAPs prescribe new accounting measurement and disclosure practices. The major effects on the Group’s accounting policies and on the amounts disclosed in these financial statements of those SSAPs which have had a significant effect on the financial statements, are summarised as follows:

SSAP 1 prescribes the basis for the presentation of financial statements and sets out guidelines for their structure and minimum requirements for the content thereof. The principal impact of the revision to this SSAP is that a consolidated summary statement of changes in equity is now presented on page 28 of the financial statements in place of the consolidated statement of recognised gains and losses that was previously required.

SSAP 11 prescribes the basis for the translation of foreign currency transactions in the financial statements. The principal impact of the revision of this SSAP on the consolidated financial statements is that the profit and loss accounts of overseas subsidiaries are now translated to Hong Kong dollars at the weighted average exchange rates for the year, whereas previously they were translated at the exchange rates at the balance sheet date. The adoption of the revised SSAP 11 has had no material effect on the financial statements. Further details of this change are included in the accounting policy for “Foreign currencies” in note 3 to the financial statements.

2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE (“SSAPs”) (continued)

SSAP 15 prescribes the revised format for the cash flow statement. The principal impact of the revision of this SSAP is that the consolidated cash flow statement now presents cash flows under three headings, cash flows from operating, investing and financing activities, rather than the five headings previously required. In addition, cash flows from overseas subsidiaries arising during the year are now translated to Hong Kong dollars at the exchange rates at the dates of the transactions, or at an approximation thereto, whereas previously they were translated at the exchange rates at the balance sheet date, and the definition of cash equivalents for the purpose of the cash flow statement has been revised. Further details of these changes are included in the accounting policies for “Cash and cash equivalents” and “Foreign currencies” in note 3 to the financial statements.

SSAP 34 prescribes the recognition and measurement criteria to apply to employee benefits, together with the required disclosures in respect thereof. The adoption of this SSAP has resulted in no material change to the previously adopted accounting treatments for employee benefits. Disclosures are now required in respect of the Company’s share option scheme, as detailed in note 32 to the financial statements. These share option scheme disclosures are similar to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) disclosures previously included in the Report of the Directors, which are now included in the notes to the financial statements as a consequence of the adoption of the SSAP.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Statements of Standard Accounting Practice, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for the periodic remeasurement of certain equity investments, as further explained below.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31st December, 2002. The results of subsidiaries acquired or disposed of during the year are consolidated from or to their effective dates of acquisition or disposal, respectively. All significant intercompany transactions and balances within the Group are eliminated on consolidation.

Minority interests represent the interests of outside shareholders in the results and net assets of the Company’s subsidiaries.

Subsidiaries

A subsidiary is a company whose financial and operating policies the Company controls, directly or indirectly, so as to obtain benefits from its activities.

The results of subsidiaries are included in the Company’s profit and loss account to the extent of dividends received and receivable. The Company’s interests in subsidiaries are stated at cost less any impairment losses.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Joint venture companies

A joint venture company is a company set up by contractual arrangement, whereby the Group and other parties undertake an economic activity. The joint venture company operates as a separate entity in which the Group and the other parties have an interest.

The joint venture agreement between the venturers stipulates the capital contributions of the joint venture parties, the duration of the joint venture and the basis on which the assets are to be realised upon its dissolution. The profits and losses from the joint venture company's operations and any distributions of surplus assets are shared by the venturers, either in proportion to their respective capital contributions, or in accordance with the terms of the joint venture agreement.

A joint venture company is treated as:

- (a) a subsidiary, if the Company has unilateral control over the joint venture company;
- (b) a jointly-controlled entity, if the Company does not have unilateral control, but has joint control over the joint venture company;
- (c) an associate, if the Company does not have unilateral or joint control, but holds generally not less than 20% of the joint venture company's capital and is in a position to exercise significant influence over the joint venture company; or
- (d) a long term investment, if the Company holds less than 20% of the joint venture company's capital and has neither joint control of, nor is in a position to exercise significant influence over, the joint venture company.

34

Jointly-controlled entities

A jointly-controlled entity is a joint venture company which is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointly-controlled entity.

The Group's share of the post-acquisition results and reserves of jointly-controlled entities is included in the consolidated profit and loss account and consolidated reserves, respectively. The Group's interests in jointly-controlled entities are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses. Goodwill arising from the acquisition of jointly-controlled entities is included as part of the Group's interests in jointly-controlled entities.

Associates

An associate is a company, not being a subsidiary or a jointly-controlled entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

Notes to Financial Statements

31st December, 2002

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Associates (continued)

The Group's share of the post-acquisition results and reserves of associates is included in the consolidated profit and loss account and consolidated reserves, respectively. The Group's interests in associates are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses. Goodwill arising from the acquisition of associates, which was not previously eliminated against reserves, is included as part of the Group's interests in associates.

The results of associates are included in the Company's profit and loss account to the extent of dividends received and receivable. The Company's interests in associates are treated as non-current assets and are stated at cost less any impairment losses.

Goodwill

Goodwill arising on the acquisition of subsidiaries, associates and jointly-controlled entities represents the excess of the cost of the acquisition over the Group's share of the fair values of the identifiable assets and liabilities acquired as at the date of acquisition.

Goodwill arising on acquisition is recognised in the consolidated balance sheet as an asset and amortised on the straight-line basis over its estimated useful life of 10 to 20 years. In the case of associates and jointly-controlled entities, any unamortised goodwill is included in the carrying amount thereof, rather than as a separately identified asset on the consolidated balance sheet.

On disposal of subsidiaries, associates or jointly-controlled entities, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of goodwill which remains unamortised and any relevant reserves, as appropriate. Any attributable goodwill previously eliminated against consolidated reserves at the time of acquisition is written back and included in the calculation of the gain or loss on disposal.

The carrying amount of goodwill is reviewed annually and written down for impairment when it is considered necessary. A previously recognised impairment loss for goodwill is not reversed unless the impairment loss was caused by a specific external event of an exceptional nature that was not expected to recur, and subsequent external events have occurred which have reversed the effect of that event.

Negative goodwill

Negative goodwill arising on the acquisition of subsidiaries, associates and jointly-controlled entities represents the excess of the Group's share of the fair values of the identifiable assets and liabilities acquired as at the date of acquisition, over the cost of the acquisition.

To the extent that negative goodwill relates to expectations of future losses and expenses that are identified in the acquisition plan and that can be measured reliably, but which do not represent identifiable liabilities as at the date of acquisition, that portion of negative goodwill is recognised as income in the consolidated profit and loss account when the future losses and expenses are recognised.

Notes to Financial Statements

31st December, 2002

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Negative goodwill (continued)

To the extent that negative goodwill does not relate to identifiable expected future losses and expenses as at the date of acquisition, negative goodwill is recognised in the consolidated profit and loss account on a systematic basis over the remaining average useful life of the acquired depreciable/amortisable assets. The amount of any negative goodwill in excess of the fair values of the acquired non-monetary assets is recognised as income immediately.

In the case of associates and jointly-controlled entities, any negative goodwill not yet recognised in the consolidated profit and loss account is included in the carrying amount thereof, rather than as a separately identified item on the consolidated balance sheet.

On disposal of subsidiaries, associates or jointly-controlled entities, the gain or loss on disposal is calculated by reference to the net assets at the date of disposal, including the attributable amount of negative goodwill which has not been recognised in the consolidated profit and loss account and any relevant reserves as appropriate.

Impairment of assets

An assessment is made at each balance sheet date of whether there is any indication of impairment of any asset, or whether there is any indication that an impairment loss previously recognised for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use or its net selling price.

36

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged to the profit and loss account in the period in which it arises, unless the asset is carried at a revalued amount, when the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however not to an amount higher than the carrying amount that would have been determined (net of depreciation/amortisation), had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is credited to the profit and loss account in the period in which it arises, unless the asset is carried at a revalued amount, when the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Fixed assets and depreciation

Fixed assets, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after fixed assets have been put into operation, such as repairs and maintenance and overhaul costs, is normally charged to the profit and loss account in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the fixed asset, the expenditure is capitalised as an additional cost of that asset.

Notes to Financial Statements

31st December, 2002

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fixed assets and depreciation (continued)

Depreciation is calculated on the straight-line basis to write off the cost of each asset over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold land	Over the unexpired lease terms
Buildings	2.5% — 5.0%
Leasehold improvements	Over the terms of the leases
Furniture, fixtures and equipment	20%
Broadcast operations and engineering equipment	10.0%
Motor vehicles	10.0% — 20.0%
Computers	10.0% — 20.0%

Construction in progress represents a building under construction and is stated at cost less any impairment losses, and is not depreciated. Cost comprises direct costs of construction and interest charges on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of fixed assets when completed and ready for use.

The gain or loss on disposal or retirement of a fixed asset recognised in the profit and loss account is the difference between the net sales proceeds and the carrying amount of the relevant assets.

Long term investments

Long term investments comprise non-trading investments in unlisted equity securities intended to be held for an identified long term purpose. Unlisted securities are stated at cost less any impairment losses, on an individual investment basis.

When a decline in the fair value of a security below its carrying amount has occurred, unless there is evidence that the decline is temporary, the carrying amount of the security is reduced to its fair value, as estimated by the directors. The amount of the impairment is charged to the profit and loss account for the period in which it arises. Where the circumstances and events which led to the impairment in value cease to exist and there is persuasive evidence that the new circumstances and events will persist for the foreseeable future, the amount of the impairment previously charged is credited to the profit and loss account to the extent of the amount previously charged.

Short term investments

Short term investments are investments in equity securities held for trading purposes. Listed securities are stated at their fair values on the basis of their quoted market prices at the balance sheet date on an individual investment basis. Unlisted securities are stated at their estimated fair values, as determined by the directors, on an individual investment basis. The gains or losses arising from changes in the fair value of a security are credited or charged to the profit and loss account for the period in which they arise.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Self-produced programmes

Self-produced programmes are stated at cost less any impairment losses. Cost comprises direct expenditure and an attributed portion of direct production overheads. The relevant portion of the cost of self-produced programmes is charged to the profit and loss account in accordance with the number of episodes broadcast in the financial year.

Purchased programme rights

Purchased programme rights, which represent entitlements under contracts to receive and broadcast programmes, are stated at cost less any impairment losses. The cost of purchased programme rights is charged to the profit and loss account upon the first broadcasting of the programmes.

Film rights

Film rights are certain rights to completed films acquired from outsiders and are stated at cost less accumulated amortisation and any impairment losses.

Film rights are amortised proportionately to the estimated projected revenues over their economic beneficial period subject to a maximum of 10 years. Estimated projected revenues are reviewed on a film-by-film basis at a regular interval. Additional amortisation will be made if future estimated projected revenues adversely differ from the previous estimation.

Leased assets

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases are included in fixed assets and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the profit and loss account so as to provide a constant periodic rate of charge over the lease terms.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Rentals applicable to such operating leases are charged to the profit and loss account on the straight-line basis over the lease terms.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when revenue can be measured reliably, on the following bases:

- (a) hotel management fee income, in the period in which such management services are rendered;
- (b) advertising agency fee income, in the period in which such advertising services are rendered;
- (c) programme distribution fee income is recognised when the master audio and visual materials have been delivered to the licensee for immediate exploitation of programmes;

Notes to Financial Statements

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition (continued)

- (d) turnover from entertainment events organised by the Group is recognised when the events are completed;
- (e) net income shared from entertainment events organised by other co-investors is recognised when the events are completed;
- (f) Internet maintenance service fee income is recognised when services are rendered;
- (g) television technical service fee income is recognised when services are rendered;
- (h) income from the sale of short term investments, on the transaction date when the relevant contract is entered into; and
- (i) interest income, on a time proportion basis taking into account the principal outstanding and the effective interest rate applicable.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, ie, assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised.

Retirement benefits scheme

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "Scheme") under the Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the profit and loss account as they become payable in accordance with the rules of the Scheme. The assets of the Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the Scheme.

Employee benefits

Share option scheme

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. The financial impact of share options granted under the share option scheme is not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge is recorded in the profit and loss account or balance sheet for their cost. Upon the exercise of share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are cancelled prior to their exercise date, or which lapse, are deleted from the register of outstanding options.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies

Foreign currency transactions are recorded at the applicable exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable exchange rates ruling at that date. Exchange differences are dealt with in the profit and loss account.

On consolidation, the financial statements of overseas subsidiaries are translated into Hong Kong dollars using the net investment method. The profit and loss accounts of overseas subsidiaries are translated to Hong Kong dollars at the weighted average exchange rates for the year, and their balance sheets are translated to Hong Kong dollars at the exchange rates at the balance sheet date. The resulting translation differences are included in the Group's accumulated losses.

For the purpose of the consolidated cash flow statement, the cash flows of overseas subsidiaries are translated to Hong Kong dollars at the exchange rates at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated to Hong Kong dollars at the weighted average exchange rates for the year.

Prior to the adoption of the revised SSAPs 11 and 15 during the year, as explained in note 2 to the financial statements, the profit and loss accounts of overseas subsidiaries and the cash flows of overseas subsidiaries were translated to Hong Kong dollars at the exchange rates at the balance sheet date. The adoption of the revised SSAP 11 has had no material effect on the financial statements, while the adoption of the revised SSAP 15 has resulted in changes to the layout of the consolidated cash flow statement, but has had no material effect on the amounts previously reported for the cash flows in prior years.

40

Deferred tax

Deferred tax is provided, using the liability method, on all significant timing differences to the extent it is probable that the liability will crystallise in the foreseeable future. A deferred tax asset is not recognised until its realisation is assured beyond reasonable doubt.

Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party, or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the balance sheet, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

4. SEGMENT INFORMATION

Segment information is presented by way of two segment formats: (i) on a primary segment reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

The Group's operating businesses are structured and managed separately, according to the nature of their operations and the products and services they provide. Each of the Group's business segments represents a strategic business unit that offers products and services which are subject to risks and returns that are different from those of other business segments. Summary details of the business segments are as follows:

- (a) the hotel management segment engages in the provision of management services to hotels;
- (b) the media and entertainment segment engages in investment in and the production of entertainment events, the operation of websites and the distribution of motion pictures and television drama series;
- (c) the satellite television segment engages in the television broadcasting business, including the production of television programmes and the operation of a satellite television channel;
- (d) the advertising agency segment engages in the provision of advertising agency services, primarily in respect of advertisements on television and in newspapers; and
- (e) the corporate and other segment comprises the debt advanced to FHEL (as defined in note 18) of approximately HK\$1,500,040,000, further details of which are included in note 18 to the financial statements, together with corporate income and expense items.

In determining the Group's geographical segments, revenues are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets.

* During the year, the Group changed its strategic purpose in its holding of certain film rights (note 20) and television dramas. Following such change, the directors considered it more appropriate to include in the media and entertainment segment, the cost of those film rights and television dramas amounting to approximately HK\$61,216,000, which were previously included as the segment assets of the satellite television segment in 2001.

Pursuant to the Reorganisation Agreement, the Development Agreement was cancelled on 29th June, 2000 upon approval by the shareholders of the Company and LSD. Accordingly, the prepaid consideration of HK\$1,900,000,000 became immediately due from FHEL.

In connection with the Reorganisation Agreement, the Company transferred certain hotel and ancillary assets, through the disposal of certain subsidiaries, associates and a long term investment, with an aggregate value of HK\$685,410,000 to LSD and, at the same time, LSD transferred certain technology-oriented assets with an aggregate value of HK\$1,085,370,000 to the Company. The excess consideration of HK\$399,960,000 payable by the Company to LSD in respect of such asset transfers was deducted from the outstanding principal amount of the indebtedness of HK\$1,900,000,000, which FHEL owed to GPEL, as a result of the cancellation of the Development Agreement as mentioned above. The amount due from FHEL was consequently reduced to HK\$1,500,040,000 (the “Debt”).

An intercompany debt deed was entered into by the Company, LSD, FHEL and GPEL on 30th June, 2000 (the “Debt Deed”), pursuant to which the Company agreed to defer the settlement of the Debt to the earlier of 31st December, 2002 or the day on which the Exchangeable Bonds and Convertible Bonds 2002 of the LSD group are repaid in full. LSD guaranteed the repayment of the outstanding principal and accrued interest payable to GPEL. The Company is also entitled to share, on a pari passu and pro rata basis with the Exchangeable Bondholders and the Convertible Bondholders of the LSD group (the “Parties”), the following security:

- (a) a limited recourse second charge over 6,500 shares of HK\$1.00 each in the issued share capital of Diamond String Limited (which owns the Ritz-Carlton Hong Kong Hotel) beneficially owned by LSD; and
- (b) a negative pledge granted by LSD, pursuant to which LSD has agreed not to create additional security over certain major properties of the LSD group without the prior consent of the Parties.

18. DUE FROM FURAMA HOTEL ENTERPRISES LIMITED (“FHEL”) (continued)

The Debt was interest-bearing at 5% per annum. The interest income received during the year in this respect was HK\$75,002,000 (2001: HK\$75,002,000). As noted above, the Debt was repayable on or before 31st December, 2002. The directors have discussed the repayment of the Debt with the management of FHEL and LSD and obtained an understanding that LSD is currently working closely with its legal and financial advisors to formulate a plan for the settlement and/or repayment of the Debt due to the Group, the amounts due to Exchangeable Bondholders and the Convertible Bondholders, and the other borrowings. Pending the outcome of the LSD debt restructuring programme, the Group is uncertain as to the extent of the recovery of the Debt. However, although the directors of the Company consider that the recoverable amount of the Debt is currently uncertain, in the absence of reliable information, they are unable to estimate the amount of any specific provision against such balance at the current time.

On 24th December, 2001, the Group entered into various licence agreements (the “Agreements”) with Media Asia Holdings Limited and its subsidiaries (the “MAH group”), an associate of the Group, to license from the MAH group certain television rights (the “TV Rights”) in the People’s Republic of China, including Hong Kong and Macau, for a total of 110 films for a period of 7.5 years, commencing from 24th December, 2001. Under the Agreements, the Group has the right to license all or any of its TV Rights to third parties. As at 31st December, 2001, the carrying value of the TV Rights to the Group, after eliminating the Group’s share of the unrealised gain recorded in MAH group in respect of this transaction, amounted to HK\$37,366,000 and such amount was included in the Group’s consolidated balance sheet as self-produced and purchased programmes at 31st December, 2001.

During the year on 21st December, 2002, the Group entered into various supplemental agreements (the “Supplemental Agreements”) with the MAH group to extend the terms of the TV Rights for an additional 3 years. Upon entering into the Supplemental Agreements, the Group obtained the offer to acquire, and have on 24th December, 2002 executed various deeds of assignments to effect the acquisition, from the MAH group of all rights, titles and interests in perpetuity to 96 films, out of which the TV Rights of 90 films already had been licensed to the Group in 2001 and 2002 as mentioned above. After eliminating the Group’s share of unrealised gain recorded in the MAH group’s accounts in respect of the above transactions, the cost to the Group to extend the terms of the TV Rights for 3 years and to acquire the 96 film rights as aforementioned amounted to HK\$75,743,000 and such amount was included in the Group’s consolidated balance sheet at 31st December, 2002. As a result of the Group’s obtaining of the aforesaid rights to the films, the Group changed its strategic purpose in holding the 110 films TV Rights acquired in 2001 and reclassified their carrying value of HK\$37,366,000 from self-produced and purchased programmes to film rights.

20. FILM RIGHTS (continued)

As at 31st December, 2002, the film rights of the Group represented all rights, titles and interests (including the 10.5 years TV Rights) in 96 films (the "96 Film Rights") of HK\$93,606,000 and the TV Rights to another 20 films for a period of 10.5 years (the "20 Film Rights") of HK\$19,503,000. The directors engaged Astoria Films Distribution Limited, an independent film distributor, to perform a valuation (the "Valuation") of the 96 Film Rights as at 31st December, 2002. Having regard to the Valuation, which indicated that the fair value of the Group's 96 Film Rights as at 31st December, 2002 was above their cost as stated in the Group's financial statements and the current market conditions, the directors are of the opinion that there was no impairment in the Group's film rights as at 31st December, 2002.

35. LITIGATION

- (a) In 1998, the Group disposed of its 50% interest in Delta Hotels Limited (“DHL”) to Canadian Pacific Hotels Corporation (the “Purchaser”). Under the terms of the sale and purchase agreement, C\$10 million (approximately HK\$50 million) of the sales proceeds was held in escrow (the “Holdback Funds”) pending the expiration of a warranty period.

The Purchaser also made an additional payment of C\$14.5 million (approximately HK\$72.5 million) that was held in escrow in respect of potential increases in the purchase price (the “Earnout Funds”).

The Purchaser made claims against the Holdback Funds in prior year. Subsequently, C\$8 million (approximately HK\$40 million) of the Holdback Funds was released to the Group and the other owner (the “Vendors”) during 2000. The Vendors commenced an action against the Purchaser for the remaining C\$2 million (approximately HK\$10 million) and the Purchaser issued a counterclaim for the C\$2 million (approximately HK\$10 million).

Subsequently, the action was expanded to include a claim by the Vendors for C\$2.5 million (approximately HK\$12.5 million) of the Earnout Funds which had become disputed.

The action has recently been settled. Pursuant to the settlement, C\$950,000 (approximately HK\$4,750,000) is to be paid to the Group in relation to the Holdback Funds and C\$1,460,000 (approximately HK\$7,300,000) is to be paid to the Group in respect of the Earnout Funds. These amounts to be paid to the Group are for principal only and are subject to adjustment for interest, commissions and withholding tax. Since the litigation has now been concluded, a recovery of C\$2,419,200 (approximately HK\$12,096,000) has been credited to the consolidated profit and loss account for the year ended 31st December, 2002.

- (b) In the 1999, 2000 and 2001 annual reports, it was reported that the Group had lost its appeal in the litigation in respect of the Whistler Mountain Inn, Limited Partnership (“WMILP”) against the limited partners. Subsequent to the appeal, the Group settled with the plaintiffs the quantum of damages, interest and costs of the action, and the court-appointed receiver of the limited partnership commenced the liquidation of the limited partnership. However, the action with the limited partners and the subsequent settlement did not deal with a separate C\$600,000 (approximately HK\$3,000,000) claim from one of the limited partners against the Group and the other limited partners. Out of the amount of C\$600,000 (approximately HK\$3,000,000) as mentioned above, C\$455,200 (approximately HK\$2,276,000) was retained by the receiver in trust for the Group. During the year, a settlement agreement was reached by the Group and the limited partner and funds on hand held in trust by the receiver in the sum of C\$470,911 (approximately HK\$2,355,000) were remitted to the Group and all matters in respect of the WMILP have now been concluded.

The loss of the appeal in prior years has been covered by an indemnity from LSD and Mr. Lam Kin Ngok, Peter, a director of the Company.

35. LITIGATION (continued)

- (c) In the 1999, 2000 and 2001 annual reports, it was reported that Sun Microsystems Inc. (“SMI”) had commenced legal proceedings against the Group in March 2000, alleging the Group’s use of the “eSun” trademark was a passing off of SMI’s own trademarks. The parties have now reached a settlement to the dispute, pursuant to which each party undertakes not to interfere in the other party’s use of the “eSun” mark in its current businesses.
- (d) On 17th June, 2002, a Writ of Summons was issued in the Court of First Instance by East Asia Entertainment Limited (“EAE”), a wholly-owned subsidiary of the Company, and Active Union Limited (“AUL”), a 70% owned subsidiary of the Company, against Australasian Entertainment Corporation Limited (“AEC”), the minority shareholder of AUL and other related parties claiming, inter alia, loss and damages (amounts to be assessed) suffered in holding an entertainment show known as “Spectaculum”. AEC counterclaimed the unsettled expenditure incurred in the show in the sum of HK\$1,486,779. An application for summary judgement against Dale Rennie, a shareholder of AEC, for part of the amount claimed in the sum of US\$81,000 (approximately HK\$631,800), being a liquidated sum that he had personally undertaken to repay, was heard but dismissed by the Court with costs to Dale Rennie. Directions will be applied for in relation to the further conduct of the action. The directors consider that the outstanding claim should have no material adverse effect on the Group and no provision for the claim is required at this stage.
- (e) On 29th July, 2002, a Writ of Summons was issued in the Court of First Instance by Glynhill International Limited (“GIL”), a wholly-owned subsidiary of the Company, against two defendants, Belford Pacific Limited and Tse Wan Chung Philip, for a sum of US\$156,900 (approximately HK\$1,223,820) plus interest, being a loan (the “Loan”) owed by the two defendants and assigned by the original lender of the loan in favour of GIL. No defence has been filed by the defendants. The defendants have issued a Third Party Notice against Chau Hong Ming, Peter seeking indemnity from him against the Group’s claim. Full provision for the Loan was made in the Group’s financial statements in the prior year.

GIGC has not obtained valid land use rights for a total area of 1,430 mu (approximately 953,340 square metres) of the land (the "Land") on which the golf club is situated, which would show unencumbered ownership over such Land upon completion of the transaction. As a result, the Group entered into a Deed of Undertaking and Indemnity with LSD on 30th June, 2000.

The Group has undertaken to indemnify LSD or any of its subsidiaries against all losses and charges suffered or sustained, directly or indirectly, in connection with GIGC not having obtained the land use rights certificates, and all other relevant documents of the Land on which the golf club is situated or not showing unencumbered ownership over the Land. The aggregate liability of the Group under the indemnity created is limited to a maximum of HK\$25,000,000. 38. POST BALANCE SHEET EVENT

As stated in the joint announcement made by the Company and LSD on 19th February, 2003, LSD, the substantial shareholder of the Company, on 29th January, 2003, requested the directors of the Company to put forward a proposal (the "Proposal") to the Company's shareholders other than members of the LSD group (the "Scheme Shareholders") regarding a proposed privatisation of the Company by way of a scheme of arrangement under Section 99 of the Companies Act (the "Scheme"). Upon the Scheme becoming effective, the Company would become an indirect wholly-owned subsidiary of LSD. The Company would apply to the Stock Exchange for the withdrawal of the listing of the Company's shares on the Stock Exchange immediately following the Scheme becoming effective. It is the intention of LSD to maintain the existing businesses of the Group upon the successful privatisation of the Company.

As at the date of approval of these financial statements, the LSD group held approximately 285,512,791 shares in the Company, representing approximately 49.99% of the issued share capital of the Company. The shares in the Company held by the LSD group will not form part of the Scheme Shares and accordingly, will not be represented or voted at the meeting of the Scheme Shareholders conducted at the direction of the Supreme Court, at which the Scheme will be voted upon (the "Court Meeting").

A document dated 31st March, 2003 (the "Scheme Document") incorporating, inter alia, further details of the proposed privatisation of the Company by LSD by way of the Scheme, the letter from the Independent Board Committee of the Company, which includes Mr. Alfred Donald Yap and Mr. Low Chee Keong, and the letter from Somerley Limited, the independent financial adviser to the Independent Board Committee together with the recommendation from the Independent Board Committee to the Independent Shareholders (as defined in the Scheme Document) of the Company as to how they should vote on the Proposal, was dispatched by the Company to the shareholders of the Company on 31st March, 2003.

39. COMPARATIVE AMOUNTS

Accordingly, certain comparative amounts have been reclassified to conform with the current year's presentation.

74

During the year, the directors considered it a fairer presentation to include in the cost of sales, certain costs incurred directly for television programme production and the operation of a satellite television channel, which in the previous years were classified as administrative expenses. Consequently, approximately HK\$9,824,000, representing the aforesaid direct costs of operations, were reclassified from the administrative expenses to the cost of sales for the year ended 31st December, 2001.
